Enforce*AIR*™ Negative Air Machine

Features & Benefits

Interlocking cabinet shape
Provides stability when stacking during transport or when daisy-chaining multiple units

Flexible, contoured handle
Ample clearance for comfort and mobility, flexes downward for secure stacking

Filter change indicator
Indicates reduced airflow, alerting user filter change may be necessary

12" inlets/outlets
Allows for higher airflow and less noise

Durable housing
Rugged, flame retardant polyethylene housing for tough environments

Easy-open latches
Toolless filter changes and access for cleaning

User-friendly controls
GFI protected receptacle outlets, allowing daisy chaining up to four units

Integrated cord wrap
Secures cord for transport; molded on both sides of the outlet

Molded carrying grips
Easier handling when carrying vertically through doorways and stairways

Variable speed control
Customize the airflow levels you need, up to 779 CFM

Non-marking feet
Absorb vibration and reduce "travelling"; durable material will not wear down over time

MADE IN CANADA
