

**HAZMASTERS**  
CREATING SAFE WORK ENVIRONMENTS

## Hazmasters has added a new branch location in Sudbury, Ontario to serve you better!

It is with great pleasure we announce that Hazmasters, a subsidiary of WESCO Distribution Canada, has joined with WESCO in the Sudbury area to open the first integrated WESCO/Hazmasters branch, providing products and services for the safety, restoration, abatement and electrical supply markets. This combined approach offers customers a much wider breadth of product, along with additional services such as safety/training, equipment inspections and repairs via Hazmasters' HazSafeED and HazSafeID programs. We look forward to the opportunity this newly integrated branch will provide us for growing our relationships and providing increased support to our customers in northern Ontario to help them create safer work environments!

**We look forward to welcoming you to our new location beginning October 1, 2014!**

### Meet Jeff Hutzul!
