

# OdorKlenz-Air®

Non-Invasive Odor Restoration

Turn your air scrubber into  
a revolutionary odor restoration tool.

OdorKlenz-Air helps safely remove odors and corrosive gasses associated with restoration jobs sites.

The number of chemicals and pollutants in the air after a loss can be substantial and unsafe. Setting up an air scrubber with OdorKlenz-Air at the beginning of the job will drastically improve the environment and make cleaning and restoration easier. OdorKlenz-Air has been used on a variety of restoration jobs, including: fire, flood, sewage, trauma, etc.

Manufactured by:

## Highlights
