

# OdorKlenz-Air®

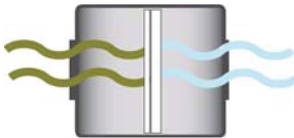

PROFINISHER

Non-Invasive Odor Restoration

Turn your air scrubber into  
a revolutionary odor restoration tool.

OdorKlenz technology has the capability to neutralize odors caused by a variety of chemistries to maintain air quality in homes and commercial properties during reconstruction or finishing projects.

OdorKlenz-Air can be deployed on jobsites negatively impacted by odors that are being created by the reconstruction or finishing process including: painting, cleaning, abatement, refinishing, etc. OdorKlenz-Air ProFinisher can prevent the spread of odors and chemicals throughout an area if used from the beginning of a job.

Manufactured by:
