Hazmasters Overview:

Since 1989 Hazmasters has been committed to supporting employers in creating safer work environments and a long-term safety culture.

As a privately held company, Hazmasters roots began in Vancouver as a small 3-person company, focusing on a unique market need and supplying products to the industry sectors they once worked in themselves. The company was founded on a simple philosophy that product knowledge needs to be combined with application expertise.

Hazmasters now has branches across Canada with knowledgeable staff, extensive inventories and functioning service centers. Our teams are safety specialists, required to continually update their skills & knowledge. Our members have an average 13 years experience helping people get home safely.

Hazmasters provides customized safety solutions through workplace reviews, training, product deployment, equipment rentals, repairs and leasing.

Training is an essential component of a comprehensive safety program. A successful training program incorporates training for:

Workers, Supervisors, Management and Executives

Hazmasters will help design an effective training program for your company, utilizing information received from on-site visits & reviews, audits, gaining an appreciation of particular hazards & issues in your workplace, safety procedures and safety plans:

understanding your safety culture.

Training can be completed at your facility or job site, customized to your particular requirements; or in an open enrolment setting.

Our approach to training includes a significant practical “hands-on” component, information specific to particular hazards, risks, topic of interest, and overall workplace safety.

Provincial regulations are always part of our courses, and closely adhered to.

No Solution is Complete Without Training.

It Saves Lives.
