INDUSTRIAL CONCRETE

The sprayers that set the standard in the industry

Chosen by more professionals, Chapin Industrial Sprayers are designed with the help of chemical manufacturers and construction professionals, specifically with your applications in mind.

Industrial grade...

Others may repackage consumer quality, home owner products as "Industrial Grade" and expect the construction professional to not see the difference. Chapin is committed to providing the best value and highest quality products to the professional contractor.

Tri-Poxy® coating lines the interior of all Chapin steel tanks (Except Stainless Steel Tanks). The photo to the left is a cross section of a crushed Chapin steel tank. Note that the coating withstood the extreme stress put to the metal without flaking, chipping or cracking.

Chapin Industrial Concrete sprayers are equipped with Viton® seals and gaskets to handle the many aggressive chemicals used by professionals. To keep up with the ever changing chemical compositions and the higher solids in today's solvents and excellerators, select Chapin Industrial concrete sprayers are equipped with Xtreme® seals and gaskets that are resistant to the most extreme chemicals and high concentrations of Acetone®, Naphtha®, Xylene® and Toluene®. These models display the large X on the tank.

Our open head tanks have our unique Tri-Lock seal that ensures that the pump cap tightly locks into the tank making positive contact with the O-ring for a tight seal.

The Dripless Shut-off

6-8135

Chapin's answer to those dripping wands! Chapin Dripless Shut-offs seal at the nozzle tip eliminating excess buildup in the extension wand that can cause unwanted drips when the shut-off is disengaged. When the trigger grip is released from spraying, the shut-off seals at the nozzle tip keeping the excess left in the wand from dripping. Excellent for applying sealers where percise control is needed. Equipped with Xtreme® Seals to handle most extreme chemicals and high concentrations of Acetone®, Naphtha®, Xylene® and Toluene®.

Some professionals just prefer Stainless. These Premium sprayers don't just look sharp, they are built to last. The polished stainless steel tanks clean easy and have large Tri-Lock openings for easy filling.

General duty sprayers feature Tri-Poxy® coated steel tanks, brass shut-offs with 36" brass extensions. Both the 1941 and 1831 have brass pumps with diecast pump handles.

Preferred by professionals for their light weight yet rugged durability, our Industrial Poly lineup contains a sprayer that fits the concrete professional's needs. With innovative features like automatic pressure relief valves, brass shut-offs and 36" brass extensions, metal pump handles and durable polyethylene 3 gallon tanks, these sprayers are ideal for the budget conscious contractor.

Like it's big brother the 19049, the **22049XP** Poly sprayer is built to handle the more corrosive chemicals without breaking down. Xtreme® seals and gaskets, brass shut-off, 36" brass extension and large mouth opening make this the toughest Chapin Industrial poly sprayer in the poly line-up.

Chapin Industrial Poly sprayers are equipped with brass shut-offs and extensions. Each have a Lock-on feature. A red lock-on feature indicates shut-offs containing Xtreme® Seals to handle more corrosive chemicals.

Our poly open head tanks have a built-in pressure relief valve that prohibits the tank from being over pressurized and allows the user to exhaust pressure before loosening or removing the pump can

Professional sprayers used for cleaning and degreasing HV/AC, heavy equipment, engines and more.

Chapin Bleach Sprayers

The perfect sprayers for storm cleanup. Apply Bleach solutions and fungicides with ease and with the correct sprayer for the job. Both our handheld (20075) and backpack (61575) are ideal sprayers for mold remediation or general cleanup.

PROFESSIONAL PEST CONTROL

Available in 1.5 and 2 gallon capacities, these sprayer have the features P.C.O. professionals require. Each is equipped with large openings for easy filling. Chapin's patented Tri-lock® design ensures a pressure tight seal. Each feature die cast metal pump handles, brass pump cylinders, driplless trigger style shut-offs to help avoid dripping pesticides. Professional grade stainless tanks that clean easily and are resistant to pesticides. Includes a brass adjustable nozzle or multi-tip brass nozzle, and accomodates most pest control nozzle attachments. The driplless shut-off ensures precise control of pesticide applications.

SUPPORT**

Designed for the Landscaper! The 62000 is the flagship in the Tree/Turf Pro Series. It includes features such as lumbar support straps, back pad, pressure guage, foldaway pump handle for both left and right hand use, brass wand, cushion grip shut-off, 3 stage filtration with removable 3-D filter and a 4 gallon translucent tank for monitoring liquid levels (all models).

ProSeries® Backpacks & Handheld Sprayers

63800 61800 64800 26031XP 26021XP 26011XP

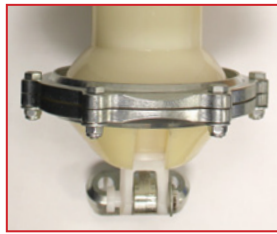

Our most popular backpacks! The ProSeries line boasts professional features like left/right hand pump handles, cushion grip shut-offs, brass nozzles, Padded straps, and 3 stage filtration with removable 3-D filter. The 64800 has a diaphragm pump for wettable powders. For the smaller jobs, the 26031XP, 26021XP and 26011XP are perfect complements featuring the same reinforced hose, shut-off and wands with brass nozzles found on the ProSeries® Backpacks.

BACKPACK SPRAYERS

63900 Commercial Duty Backpack Sprayer

- Dual Displacement Pump integrates both diaphragm and piston technology to produce increased PSI and eliminate piston leaking.
- **WIDEMOUTH™**
6" opening allows for easy filling and cleaning/servicing of pump. Cap has a built in carry handle and wand clip.
- Large 6" basket to catch (1st stage filter) contaminants and debris when filling tank.
- In-tank (2nd stage) Patented self cleaning 3-D Removable Filter
- Swing-away Pump Handle can be used left or right handed and swings away for more compact storage when not in use.
- Viton® seals for maximum chemical resistance.
- Cushion grip shut-off with built-in, serviceable filter (3rd stage) to assure that no debris can clog nozzle tip.
- Comfortable back pad and double padded shoulder straps meant for prolonged use.

63900

Combined Piston and Diaphragm Pump

Combines piston and diaphragm technology to provide increased pressure (well over 120 psi) and... virtually eliminates piston leaks!

Sprays both liquids and wettable powders!

Self Cleaning JetClean Design keeps the 3-D Removable filter from clogging from built up residue and debris.
