

ZipWall® — the only comprehensive dust barrier system. Spring-loaded poles securely hold a dust barrier up to 20' high. Heavy-duty zippers create entryways in a barrier. Innovative FoamRails™ tightly seal a barrier without tape. Reusable panels offer a green and cost-effective alternative to plastic. Specialty parts address common needs with practical solutions. Complete, ready-to-use kits add quick and easy ways to seal off doorways and hallways.

**Set up a tight dust barrier in just a few minutes
— no ladders, no tape, no damage!**

ZipWall® 20 2-Pack

Patented

Use with plastic sheeting or ZipFast™ reusable barrier panels.
ZipWall® 20 — formerly Kit20™

ZipFast™ reusable barrier panels and plastic sheeting not included.

Seal up to 8' along ceiling and/or floor with only one pole — ideal for wide expanses!

Easily adjust to fit the width of the job!

NEW!

TAPELESS SEALS

FoamRail™ Tapeless Seals

Create a tight seal without tape in seconds!

Innovative rails snap onto ZipWall® spring-loaded poles and wall mounts, pressing the barrier against the ceiling, floor, and/or walls to form a tight seal.

- Reusable and cost-effective
- Can be used with negative or positive air
- Use instead of tape where tight sealing is required

No ladders, no tape, no damage

Patented

NEW! Patent pending

FoamRail Span™ Adjustable Tapeless Seal
Extends from 4'3" to 8'!

SidePack™ Wall Mount Kit

FoamRail™ Tapeless Seals

SideClamp™ Tapeless Seal Clamps

Zip panels together to fit the width of the job!

REUSABLE BARRIER PANELS

ZipFast™ Reusable Barrier Panels

Never buy plastic sheeting again!

Durable and reusable, ZipFast™ panels zip together to quickly build a dust barrier up to 12' high and as wide as needed.

- Airtight, tough nylon fabric with built-in heavy-duty zippers
- Ready to use — no measuring or cutting
- Greener and more cost-effective than plastic sheeting
- Present a professional image
- Provide privacy on both sides of the barrier

No ladders, no tape, no damage
