## Health Canada's Guidance for Back to School

At present, symptoms currently associated with COVID-19 are similar to many common respiratory illnesses that may be circulating through schools/childcare settings. Key strategies to prevent and control respiratory viruses, including COVID-19, in schools and childcare settings are:

For students/children and staff who are ill with fever and/or infectious respiratory symptoms to stay home from school/childcare  
The consistent practice of good respiratory etiquette and hand hygiene  
To ensure regular and routine environmental cleaning of the facility

### Hand hygiene

Washing hands with plain soap and water is recommended in schools and childcare settings. In instances where hand washing sinks are not available, supervised use of alcohol based hand sanitizers containing at least 60% alcohol may be considered. It is recommended that in addition to existing sinks, increased numbers of hand sanitizing stations as well as tissues and waste receptacles be provided. Schools and childcare centres should ensure:

Additional tissue supplies and waste receptacles are made available.  
If alcohol based hand sanitizers are provided to supplement hand washing facilities, secured dispensers are to be located in supervised areas.

## Safety ToolKit: Checklist for Students

### Product:

- Nitrile gloves
- Earloop masks
- Hand sanitizer

### Practice:

- Social distancing
- Hand hygiene
- Cough and sneeze etiquette
- Keep mask on

## Safety ToolKit: Checklist for Staff

### Product:

- Nitrile gloves
- Earloop masks
- KN95 masks
- Face Shields
- Hand sanitizer

### Practice:

- Social distancing
- Hand hygiene
- Cough and sneeze etiquette
- Keep face coverings on
- Discourage sharing of items that are difficult to clean or disinfect
- Avoid sharing of electronic devices, toys, books, and other games or learning aids in the classroom
- Space seating/desks at least 6 feet apart when feasible

# Safety Product Recommendations: Students and Staff

*We know your back to school list looks a lot different this year, and we're here to help. Hazmasters has the products and expertise your schools need to return safely and minimize risk.*

## All Clean Natural Sanitizing Wipes

Anti-bacterial cleansing wipes are gentle on sensitive skin & leaves hands feeling soft.

- # ACNL7046: 5" x 5" - 270 count per pail
- # ACNL7045: 9" x 12" - 450 count per pail

## Infection Control Personal Kit

Every kit contains:  
 5 Level 2 Surgical Masks  
 5 Pairs of Nitrile Gloves  
 5 Surface/Hand Wipes  
 1 Dermacen Gel Hand Sanitizer (236ml)

Part # INSS7790

## Hand Sanitizer

Easy, convenient, and effective  
 Multiple sizes and formulas available:  
 Liquid, Gel, Foam, Spray

## Surgical Masks

Hypoallergenic  
 High filtration capacity  
 Very low resistance to breathing

## KN95 Disposable Masks

0.3 micron particle filtration - 95%  
 Folding nose bridge  
 Five layers of protection

## Health Canada's Guidance for cleaning and disinfecting public spaces during COVID-19

Surfaces frequently touched with hands are most likely to be contaminated. These include doorknobs, handrails, elevator buttons, light switches, cabinet handles, faucet handles, tables, countertops and electronics.

Operators of community settings should develop or review protocols and procedures for cleaning public spaces. This will help determine where improvements or additional cleaning may be needed.

Read and follow manufacturer's instructions for safe use of cleaning and disinfection products (e.g. wear gloves, use in well-ventilated area, allow enough contact time for disinfectant to kill germs based on the product being used). Wash hands with soap and water or use alcohol-based hand sanitizer after removing gloves. Use damp cleaning methods such as damp clean cloths, and/or a wet mop.

Contaminated disposable cleaning items (e.g. mop heads, cloths) should be placed in a lined garbage bin before disposing of them with regular waste. Reusable cleaning items can be washed using regular laundry soap and hot water (60-90°C). Clean and disinfect surfaces that people touch often.

In addition to routine cleaning, surfaces that are frequently touched with hands should be cleaned and disinfected more often, as well as when visibly dirty.

Shared spaces such as kitchens and bathrooms should also be cleaned more often.

### Checklist for facility managers and facility staff:

#### PPE:

- Nitrile gloves
- Ear loop masks
- KN95 masks
- Face Shields
- Hand sanitizer
- Eye protection

#### Equipment:

- Electrostatic Sprayers
- Foggers

#### Cleaning Materials:

- Wipes
- Disinfectant

#### Hygiene and Safety Support:

- Hand washing stations
- Signage

# Safety Product Recommendations: Facilities

For both pandemic and general safety, Hazmasters has your facility management needs covered.

### Face Shield

Lightweight Polyester Shield  
Low Distortion, Splash protection & Optically clear.  
Soft foam headband with adjustable strap.

# BOBD88-1-800

### Reusable Face Masks

3-Ply 100% Cotton  
Wicking Cool Comfort  
Breathable fabric  
Adjustable nosepiece for enhanced comfort and fit  
Washable & reusable

HANECSKN10-BLACK

### 6 mil Nitrile Disposable Gloves

Double sided fish scale grip  
Chemical resistant  
100% Nitrile - No Latex  
50 ea per Box

Large: # BOBD99-1-6000B-L

Extra Large: # BOBD99-1-6000B-XL

### Ice Cleats

Fits a variety of footwear for a convenient solution that keeps each member of the team safe no matter the work environment, shoe size, or footwear requirements.

# GEROKI-XL

### Portable Handwashing Station

15-gallon portable hand washing station  
Provides 30-40 hand washes\*  
All metal construction for job site durability

# HAWS7603-2000

### Professional Cordless Electrostatic Handheld Sprayer

Coats up to 2,800 square feet on a single tank of fluid.  
Combined with our patented electrostatic charge, this allows you to apply an even coating on all surfaces.

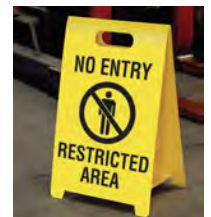

#WESCVP200ESK

### Professional Cordless Electrostatic Backpack Sprayer

Coats up to 23,000 square feet on a single tank of fluid.  
Combined with our patented electrostatic charge, this allows you to apply an even coating on all surfaces.

# WESCVP300ES

### Social Distancing Signage

Available in an assortment of stock sizes and colors with custom options available.
